SUMMARY

Third-year B.E student in Artificial Intelligence and Data Science at Chaitanya Bharathi Institute of Technology (CBIT), Hyderabad. Passionate about building AI-driven systems and data-driven solutions to solve real-world problems. Skilled in Python, Machine Learning fundamentals, Java and web development (HTML, CSS), with hands-on experience developing AI and data science projects and participating in hackathons. Actively seeking opportunities to apply AI and data science skills in real-world applications and contribute to innovative technology solutions.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL

Machine Learning: Supervised Learning, Unsupervised Learning, Feature Engineering, Anomaly Detection, Natural Language Processing

Frameworks & Libraries: PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy

Data Visualization: Power BI, Matplotlib, Seaborn

Tools: Git, Jupyter Notebook, Streamlit

Big Data (Basics): Apache Spark

PROJECTS

RaktaSetu – AI Based Blood Donor Connectivity Platform

2025

Smart India Hackathon Project

- Developed a platform to connect Thalassemia patients with nearby blood donors in real-time to improve emergency blood availability.
- Designed modules for donor registration, patient requests, and blood bank coordination.
- Focused on improving healthcare accessibility through faster donor discovery and efficient request management.

CBIT Events Platform

2025

Full Stack Web Project

- Developed a multi-page event discovery platform for students to explore and participate in college and external events.
- Implemented authentication-based features allowing users to upload and manage events.
- Designed an interactive user interface with modern styling and responsive layout for better user experience.

NextChamp – Rural Sports Talent Identification Platform

2025

Web Application Project

- Developed a platform to help talented students from rural areas showcase their sports performance and achievements.
- Implemented a system where students can submit their scores and performance records through the website.
- Designed the platform to forward verified performance data to higher-level sports officials for potential recognition and opportunities.

EXPERIENCE

HackWithHyderabad Hackathon Participant

2025

Devnovate — Microsoft Office, Hyderabad

- Participated in a 24-hour innovation hackathon collaborating with a team to design and prototype a technology solution.
- Worked on AI-driven problem solving, brainstorming system architecture and implementing core components under time constraints.
- Gained hands-on experience in rapid prototyping, teamwork, and presenting technical solutions.

EDUCATION

Chaitanya Bharathi Institute of Technology (CBIT)

Hyderabad, India

B.E. in Artificial Intelligence and Data Science — CGPA: 7.6

2023 – 2027

Sri Viswa Junior College

Visakhapatnam, India

Intermediate (MPC) — Percentage: 92%

2021 – 2023

Saint Joseph's E.M. School

Vizianagaram, India

Secondary School Certificate (SSC) — Percentage: 95.5%

2020 – 2021

CERTIFICATIONS
